

5th November 2025

Dear Parent/Guardian,

Monbulk College is looking forward to another exciting year of teaching and learning and would like to advise you of Monbulk College's Year 7 voluntary financial contributions for 2026.

At Monbulk College, our unwavering commitment to excellence drives us to continuously innovate our educational programs, tailored to meet the unique needs and interests of each of our students. We take great care to keep the costs associated with various school items and activities as low as possible, ensuring affordability for all parents in our community.

Schools provide students with free instruction to fulfil the standard curriculum requirements and we want to advise you that all contributions are voluntary. Nevertheless, the ongoing support of our families ensures that our school can offer the best possible education and support for our students. We want to thank you for all your support, whether that is through fundraising or volunteering your time. This makes a huge difference to our school and the programs we can offer.

Your financial support will continue to enable us to provide a committed wellbeing team available to all families and students. In addition, we aim to provide shelter structures for students (construction planned Term 1 2026), finalise the theatre and music room refurbishment, develop walking pathways (construction planned Term 1 2026) and provide additional resources for classrooms and specialist areas.

It is important to stress that the continued viability of our innovative programs in 2026 relies on your support through voluntary parent contributions. We understand the financial challenges faced by families, and we want to assure you that all contributions are valued and go directly toward student programs, specialist staff, and facilities that benefit everyone. By working together and contributing what we can, we create a powerful collective impact for our school community.

Parents can also make tax deductible contributions to our Building or School Library funds. Contributions to our building fund are helping realise exciting projects such as the gymnasium upgrade, upgrade learning spaces. Our library fund will help innovate and create an inviting and interactive environment for the students.
