

# Digital Technology at Monbulk College: Acceptable Use Agreement

## Our commitment to the responsible use of digital technology

At Monbulk College we are committed to building a culture of respect and responsibility. We show this in the way we use technology and interact online. We teach our students about responsible digital behaviours, including how to recognise and respond to online dangers and threats. We support students to develop the digital skills they need to make a positive impact in the world. We are intentional and discerning about our integration of digital tools into the curriculum, providing rich, interactive and personalised experiences, while ensuring a balance with offline learning opportunities.

#### PARENTS INFOMRATION

#### What we do

## We set clear expectations

- We have clear expectations about appropriate conduct using digital technologies.
- Our <u>Mobile Phone Policy</u> outlines our school's expectations relating to students using mobile phones during school hours.
- We have clear and appropriate consequences when students breach these expectations, in line with our <u>Student Wellbeing and Engagement Policy</u>.

#### We teach appropriate conduct

• We teach our students to be safe, intentional and responsible users of digital technologies, including age-appropriate instruction on important digital issues such as cybersafety and cyberbullying.

#### We partner with families

• We work with parents and carers to understand the digital technology-related issues they are facing at home. We support them with information and tools that help.

## We provide access to technology

- We provide access to educational software for students to use.
- We create student email accounts which are non-identifiable.

#### We supervise digital learning

- We supervise students using digital technologies in the classroom, consistent with our duty of care.
- We use clear protocols and procedures to protect students working in online spaces

#### We take appropriate steps to protect students

- We provide a filtered internet service to block inappropriate content. Full protection from inappropriate content cannot be guaranteed, however, we have processes to report and act on inappropriate content.
- We may access and monitor messages and files sent or saved our network, if necessary and appropriate.

#### We appropriately manage and respond to online incidents

- We work to prevent, respond, and learn from issues or incidents relating to the use of digital technology, including cybersecurity incidents, cyberbullying and risks to child safety.
- We refer suspected illegal online acts to the police.

#### How parents and carers can help

Learning about technology and its impacts doesn't stop at the school gate. Below are our suggestions for ways you can support your children to responsibly use digital technology.

#### **Establish clear routines**

- Talk to your child about expectations including when, where, and how digital devices can be used at home, ensuring these rules are age-appropriate and consistent. These can include:
  - Requiring devices to be used in a common area, such as a living room or study area
  - Setting up a specific area for charging devices overnight, away from bedrooms, to promote better sleep hygiene.

#### **Restrict inappropriate content**

- Use built-in parental controls on devices and apps to help manage their device access and restrict inappropriate content.
- Consider restricting the use of apps with addictive game mechanics (e.g. rewards, badges, limited exit options).

#### Talk about online safety

- Talk with your child about the importance of protecting personal information, recognising online scams, and understanding and adjusting privacy settings on social media.
- Encourage your child to talk to you or another trusted adult if they feel unsafe online.

### Model responsible and balanced technology use

- Encourage a healthy balance between screen time and offline activities, especially outdoor unstructured play and time with friends and family, face-to-face.\*
- Demonstrate responsible and balanced tech use in your own daily routine to set a good example for your child.

#### Work with us

- Let your child's teacher know about concerns you have regarding their technology use
- Keep informed about what your child is learning at school, so you can help reinforce positive messages at home.
- \*Australia's physical activity and sedentary behaviour guidelines include the following recommendations for children between 5-17 years-old regarding sedentary recreational screen time:
  - no more than 2 hours of sedentary recreational screen time per day
  - avoiding screen time 1 hour before sleep
  - keeping screens out of the bedroom.

#### Support for parents and carers

To learn more about how to support the safe, intentional and responsible use of digital technologies at home, the eSafety Commissioner provides <u>advice for parents</u>, and outlines available <u>counselling and support services</u>.

## Personal devices at Monbulk College

Monbulk College operates a Bring Your Own Device (BYOD) program. Parents/carers are invited to purchase or supply a device for their child to bring to school. We have made special arrangements with Learning with Technologies who offer discounted prices for the lease or purchase of devices for our students.

## Technical specifications for BYOD devices

To ensure smooth and reliable technology access and student support, we have set the following technical specifications for all personal devices. If purchasing or supplying a personal device to use at Monbulk College, please ensure that it complies with the following specifications:

A Windows notebook or a MacBook are the only approved devices for use in the notebook program. **Chromebooks, iPads, tablets, and other devices are not supported.** 

Our notebook program requires a device that will enable students to use it for at least 3 years, with increasing complexity of programs introduced at Year 9. As such, the minimum requirements are outlined in this document.

A device that does not meet these requirements may not be capable of supporting the range of software and other features required, and as such, will not be supported at the college.

All students will be connected to our eduSTAR Wi-Fi, configured with our printing, and have access to a range of free software including Microsoft 365 with Office and the Adobe Creative Cloud suite.

## Minimum Device Requirements

Alternatively, below are the minimum requirements. Ensure the device at least meets these requirements, which your chosen retailer salesperson can assist with, if purchasing. Please also consider accidental damage protection and the service process if the device is damaged or in need of repair.

Windows PC		MacBook			
	erating System – Windows 11 version H2 or later	•	Operating System – macOS 14 Sonoma or later		
	ocessor – Multicore Intel or AMD, least 3.0 GHz	•	Apple MacBook Air or Pro, M1 (2020) or later		
• Me	emory – at least 16 GB	•	Sleeve and/or slimline case		
• Dis	splay size – at least 13"				
• Rur	n time (battery) – at least 8 hours				
• Pov	wer – USB-C charging only				
• Soli	lid state drive – at least 256 GB				
• Slee	eve and/or slimline case				

Any families who may require financial assistance are welcome to contact the "No Interest Loan Scheme" from Good Shepherd. Visit goodshep.org.au/services/nils/ for more information.

If you have any further questions or require assistance, please contact the General Office to pass your request to the ICT Team.

#### **Behavioural Expectations**

When bringing a personal device to schools, students must ensure that:

- it is fully charged each morning
- it is carried to school with appropriate care in a carry case and stored in lockable storage when not in use
- any physical device damage is immediately reported and if necessary, repaired
- it is clearly labelled with the student's name and class

#### Supports and Services provided

Monbulk College will provide the following technical support services for personal devices brought to school:

- Support to access software [such as Microsoft 365]
- Connecting devices to the internet
- Providing student log-in credentials to access the schools network, including a school email account

Please note that our school <u>does not have insurance</u> to cover accidental damage to students' devices, and parents/carers are encouraged to consider obtaining their own insurance for their child's device.

Students, parents and carers who would like more information or assistance regarding our BYOD program are encouraged to contact the General Office on 9751 9000.

#### STUDENT INFOMRATION

## What we expect

## Be safe

At Monbulk College, we protect personal information and keep safe online.

#### We do this by:

- Not sharing our password or using someone else's username or password.
- Logging out of our devices when they are not in use.
- Restricting the personal information we post online, including images and videos.

At Monbulk College, we are kind and show respect to others when using technology.

#### We do this by:

Be respectful

- Acting with kindness and never bullying or impersonating others online.
- Thinking about how our words might make others feel before we say or write them.
- Only taking photos or recordings of others when they are aware and have given us permission to do so.
- Seeking permission before sharing others' information online.
- Never using a generative artificial intelligence (AI) tool to upload or generate images of a student, parent, or teacher.

At Monbulk College, we are honest, handle technology with care and follow the school rules.

#### We do this by:

#### Be responsible

- Handling devices with care and not interfering with school-managed network or security settings, other people's work, or devices we don't own.
- Following the terms and conditions of any digital tool we use.
- Not downloading or using inappropriate programs like games, or programs/networks designed to bypass the school's internet and content restrictions.
- Not using technology to cheat or steal, and always acknowledging when we use information sourced from others or generate content using AI tools.
- Turning off and securely storing our mobile phone during school hours.
- Ensuring a healthy balance between screen time and offline activities at school.

#### Ask for help

At Monbulk College, we ask for help if we feel unsure or see something inappropriate.

We do this by talking to a teacher or a trusted adult if:

- We feel uncomfortable or unsafe.
- We see others participating in unsafe, inappropriate, or hurtful online behaviour.
- We notice any damage to school technologies.
- We need help understanding about a digital tool or how it can be used.
